## About Me

I am currently a Financial Mathematics Student studying in my final year at Loughborough University. I have achieved a 2:1 in both 1st and 2nd year (including marks above 70% in modules such as mathematical methods, probability theory and financial economics) and I am aiming to achieve a 1st in my final year. I am passionate about web development and have, in my free time, developed a portfolio site displaying my work so far. I have built my sites using HTML, CSS, Vanilla Javascript and React.js with the help of many other tools such as Git and Figma. I am constantly learning more to improve my skills and would like to find full time work upon graduation in order to further my development.

## Experience

### **Buzz Marketing - Web Designer/Developer Summer Internship (2021-present)**

At Buzz Marketing, I designed and developed wordpress websites for clients in a range of industries. I was able to work efficiently within a small team and collaborate on a range of projects which has helped me to learn new skills and techniques from my colleagues. I still carry out work for them such as designing sites and writing articles, alongside my studies.

### **The White Hart Pub - Bartender and Waiter (2018-2021)**

Working at the White Hart allowed me to build relationships with both staff members and regular customers from a variety of backgrounds. It challenged me to be able to work well under pressure, showcase leadership skills and learn how to be adaptable in the workplace.

### **Other (2015-2018)**

In the time before these roles, I had been employed between the age of 15-18 working as a waiter for a catering company (Hall and Co Event Design), and also working as a freelancer organising documentation for technical illustrators.

---

## My Portfolio

Attached is a link to my personal website, built using HTML, CSS and Vanilla Javascript. The details of my projects within are specified in more detail on my GitHub page.

### Skills

HTML,  
CSS,  
Javascript,  
React,  
Git,  
Wordpress,  
R,  
Github,  
Figma

### Education

Bsc Financial Mathematics,  
Loughborough University (On  
track to achieve a 2:1/1st)  
  
A Levels (A in Maths, B in  
Physics, B in Psychology)  
  
10 A\*-C at GCSE (Including an A\*  
in Maths and an A in English)

### Hobbies and Interests

Stock Market  
Investing,  
Football,  
Gaming,  
Cooking
